2018 New and Maintenance Activation Prices

See links for [GDM Order Form](#) and [GDM Country Representatives](#)

Website: www.gdmdata.com Email: GDM.ARM.Support@gdmdata.com

Gylling Data Management is the sole manufacturer of the ARM software programs. GDM sells only a current version of our software for computers using Windows 10, 8.x, 7, or newer.

Annual Maintenance for ARM in 2018 is due 1 year after ARM's 2017 software invoice date.

<p>ARM / ARM ST / TDCx/ ARM Trial Database/ Statistical Guide See ARM Products Update for product descriptions. See ARM FAQ for details on ARM questions, also support and maintenance changes.</p>	<p>Prices Valid until 31 Dec 2018</p>	<p>* Yearly Annual Maintenance Starts Year 2</p>
<p><u>ARM</u> (create and analyze single trial) Prices in € ARM, TDCx, ST, ATD license purchases require annual maintenance payments beginning 1 year after invoice date.</p>		
<ul style="list-style-type: none"> • New ARM Full first license in organization 	<p>€1695</p>	<p>€409</p>
<ul style="list-style-type: none"> • New ARM Full additional license each (€500 discount after purchasing first license) 	<p>€1195</p>	<p>€409</p>
<ul style="list-style-type: none"> • Upgrade from ARM 9 or older to annual maintenance (serial number required) 	<p>€1195</p>	<p>€409</p>

***** NEW TDCx ARM License Add-In --TDCx Requires ARM License**

TDCx is a new ARM Add-In that includes Tablet Data Collector (TDC) software for:

- An activated ARM license serial number - TDCx installs onto the same computer as ARM
- That is installed **on only one PC**, either your touch-enabled Windows tablet, or a laptop computer.

The "x" in "TDCx" indicates that you:

1. Purchase a touch-enabled Windows tablet or laptop computer of your choice, then
2. Install and activate your ARM license on this computer - either:
 - a. Transfer your current ARM license to this computer and purchase the TDCx Add-In, or
 - b. Purchase an ARM Field license bundle, which is an ARM Technician license plus TDCx Add-In.

TDCx is available beginning January 1, 2018, and is first supported in ARM version 2018.

Use Tablet Data Collector to directly enter assessment data in ARM using integrated touchpad, take one-click plot photos, and directly record GPS coordinates of trial corners, plots, and assessments.

GDM recommends the following for the minimal requirements to use TDCx. Less than optimal

* Annual maintenance payment starts year 2, one year after original invoice date
 ARM/ST/TDCx software prices beginning 26 November 2017 to 31 December 2018

TDCx performance will occur if using hardware not meeting these minimum recommendations.

- **Requires Windows 10 or newer** operating system
- Sunlight-readable display/screen protector
- Rear-facing camera (6+ megapixel)
- SD card or low-profile flash drive (backup for data and pictures)
- Integrated GPS
- 64+ GB internal storage
- 4+ GB RAM memory
- Stylus

<p>***NEW: ARM License Bundles, which include ARM plus TDCx Add-In An ARM license bundle may be installed on only one computer, either:</p> <ul style="list-style-type: none"> • Your Windows Tablet for mobile field data capture, or • Your laptop or desktop PC. 	New Price	* Annual Maintenance
